

Tracy Thomson: 2014 Picou Fellowship Recipient

A dedicated geoscientist since the second grade, Tracy received an Associates of Arts degree from the College of eastern Utah, a B.Sc. from the University of Utah, and is currently enrolled in the Master's program at the University of California-Riverside. Dr. Mary Droser is his advisor and his research topic is Behavioral and paleoenvironmental implications of reptile "swim tracks" from the Early Triassic of western North America. Of particular interest, Tracy was granted support in 2013 and needed additional support for this year. Because of the perceived importance of his research, he was given a second grant.
